

Setup email account on iPhone iOS7

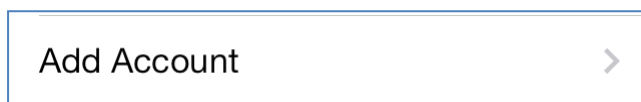

This document is designed to help you setup your email account on iPhone iOS7.

The screenshots will show how to setup the email address john.smith@yourdomain.com.au. Substitute john.smith with the account name you created and also substitute yourdomain.com.au with your own website domain name.

1. Tap **Settings**.
2. Tap on **Mail, Contacts, Calendars**.

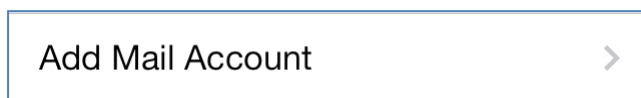

3. Tap **Add Account**.

4. Tap **Other**.

5. Tap **Add Mail Account**.

6. Enter details and then tap **Next** (substitute yourdomain.com with your website domain name).

Cancel	New Account	Next
Name	John Smith	
Email	john.smith@yourdomain.co...	
Password	●●●●●●●●	
Description	John Smith - yourdomain	

Setup email account on iPhone iOS7
